fatframe™ is the lightweight, durable iPad protection range designed to protect your iPad when in use by those who may not quite understand or appreciate your device's fragility. fatframe™ is ideal for children, students and adults alike; providing peace of mind that your Apple iPad is protected from impact as well as general use.

iPad tablet devices are an increasingly popular educational tool as well as recreational pass time. With applications designed to meet the needs of all ages, iPads provide an invaluable service to children, students and adults alike. However, whilst iPads certainly have many advantages, it is universally recognised that to protect your somewhat fragile device you should keep it in a protective case.

Kalamazoo Direct provides a number of products in the fatframe™ range. These include the **fatframe™ protective frame** and the **fatframe™ stand**.

Key features:

- Soft and spongy with no sharp corners
- Durable and long-lasting
- Bounces if dropped
- Lightweight
- Made from non-toxic chemicals
- Can be wiped clean
- iPad fits easily and securely
- Fits iPad models 2, 3, Air & Mini
- Convenient handles for easy grip

fatframe™ features cleverly designed handles making the case easy to hold and transport and has easy to access ports with no covers that can be torn off. It is made from a high quality EVA, a durable material which is non toxic, BPA, lead, latex and PVC free.

336mm long x 235mm wide x 30mm deep, fatframe is perfectly designed to be an easy, secure fit - ensuring your iPad is fully protected. fatframe™ is for use with iPad models 2, 3, 4, Air & Mini.

Ideal for all ages, the fatframe™ stand is designed to withstand significant rough use by those who may not understand or appreciate an iPad's fragility. The stand enables easy table top viewing when hands need a rest.
